STUDENT HOUSING - MILESTONE PORTO ASPRELA

Design & Build Residential

This Design & Build project for the Austrian multinational Milestone, for university accommodation, is located in the Asprela Academic Campus, a few dozen metres from the metro station serving the campus.

The building, with an impressive volume, has its facade clad with prefabricated concrete panels, with faceted pillars of different orientations, giving it an irregular outline and a unique architectural language.

Since it is a contemporary student residence, the building has different social and common spaces, such as a gymnasium, study rooms,

laundry, among others.

The building consists of 2 basements for parking, ground floor for social areas and 8 floors with 220 single rooms, each equipped with private bathroom and kitchen (kitchenette).
